Highly motivated and versatile professional who recently completed a rigorous full-stack software development program, acquiring comprehensive technical skills and expertise. With a Speech-Language Pathologist (SLP) background and extensive experience in school administration, I am adept at leveraging a unique blend of educational expertise and software development knowledge to drive innovative solutions and optimize operational efficiency. Proven ability to effectively communicate and collaborate with diverse stakeholders. Strong leadership qualities, problem-solving abilities, and a passion for making a positive impact where education and technology intersect.

## EXPERIENCE

### FULL STACK SOFTWARE DEV STUDENT
DigitalCrafts   2023-Present

Plans, executes and delivers projects focused on different stacks as we progress through the coursework Individually as well as in teams..
- HTML, CSS, EJS, Bootstrap
- Writing routes and Restful API calls
- Setting up databases/tables with SQL, PostgreSQL. Sequelize, Beekeeper, and Elephant SQL.
- Authentication and serialization using Passport and Cookie-Session
- React

### SPEECH LANGUAGE PATHOLOGIST
Cypress Fairbanks ISD   2021-2023

Evaluated and supported preschool, and elementary, middle school, with various speech/language delays and disorders in individual and group settings. Designed and deployed comprehensive lesson plans in restrictive classrooms for students with a variety of special needs.

### LEAD SPEECH PATHOLOGIST
Klein ISD    2020-2021

Streamlined the professional development of all assessment professionals. Led policy and procedure changes to ensure enhanced quality services to students. Hired and managed 65 speech services providers and liaised closely with other assessment professionals and coordinators of diverse special education programs. Supervised all SP assistants.

### LEAD SPEECH PATHOLOGIST
Pasadena ISD   2014-2020

Led the evaluation of ECSE, preschool, elementary, middle school, and high school-aged children with speech/language delays and disorders in individual and group ecosystems. Spearheaded the cultivation of lesson plans for students with autism spectrum disorders, Down Syndrome, Cerebral Palsy, emotional disturbance, and intellectual disability. Led the integration of low and high-tech augmentative alternative communication devices in educational settings, including individualized speech, small group activities, and full classroom participation.
